WORKSHOP ON ETABS SOFTWARE FOR BUILDING ANALYSIS & DESIGN

OCTOBER 15, 2016 (SATURDAY)

COMPUTER LAB, FACULTY OF ENGINEERING, UPM

ETABS is one of the most commonly used software for structure analysis and design. It offers a single user interface to perform Modeling, Analysis, Design, Detailing, and Reporting. This workshop provides hands on experience of using ETABS for buildings design.

The Trainer

Ir. Faizal Mohd Ismail

B.Eng (HONS) Civil, UM, MSc (Struct Eng & Construction), UPM

Ir. Faizal is working as a Senior Engineer in a local C&S Consultant Firm. He had experienced in handling various software for building and bridges analysis and design such as ETABS, SAFE, ESTEEM, ORION, STAAD.Pro, S-FRAME, RAMSTEEL and PROKON. He also involved in various projects, such as WGST LAP Wilayah Tengah 11, Perak, West Coast Expressway : Upgrading Tanjung Karang To Sabak Bernam and many more. He is registered with the Board of Engineers Malaysia (BEM) and the Institution of Engineers Malaysia (IEM).
